SUMMARY

Computer Science undergraduate with hands-on experience in full-stack development, AI/ML systems, and cloud deployment. Skilled in MERN stack, FastAPI, Flutter, Docker, and LLM integrations including LLaMA and Gemini APIs. Built scalable healthcare and bioinformatics applications with experience in REST APIs, authentication, OCR, and deep learning pipelines.

EDUCATION

Keshav Memorial Institute of Technology
Bachelor of Technology

Hyderabad, India
Graduation: 2027

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript

Web Frameworks: React, Node.js, Express.js, HTML, CSS

AI/ML Frameworks: TensorFlow, PyTorch, scikit-learn, Pandas, NumPy

Databases: MongoDB, MySQL

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, Git, GitHub

PROFESSIONAL EXPERIENCE

Full Stack Developer (Freelance) – CloudMedi
Patient Management & Healthcare Automation System

February 2024 – June 2025
Hyderabad, India

- Built a healthcare platform supporting role-based access for doctors, nurses, and admins with sub-2s API response time
- Developed voice-to-text clinical note generation and AI-powered prescription support using LLaMA 3 with WhatsApp integration
- Integrated OCR using the Gemini API and implemented secure CRUD operations for patient record management

PROJECTS

CRISPR Off-Target Prediction System

Tech Stack: MERN, Python, CNN, BERT, BiGRU, Deep Learning

- Built a CRISPR/Cas9 prediction pipeline to classify cut vs. no-cut outcomes using sgRNA and target DNA sequences
- Implemented CNN, BERT, BiGRU, and Dense neural networks, integrating multiple architectures for improved prediction accuracy
- Connected trained deep learning models to a MERN-based web interface via backend APIs

AI-Enhanced Blog Platform

Tech Stack: MERN, Mistral-7B API, Salesforce BLIP, REST APIs

- Built an AI-powered blogging platform displaying trending topics with full CRUD functionality
- Integrated Mistral-7B for AI-assisted writing and Salesforce BLIP for image-to-blog generation
- Enabled seamless social media sharing for platforms including Twitter, Reddit, and Instagram with scalable backend APIs

ACHIEVEMENTS

- Participated in Google DevFest workshops focused on Agentic AI using the Gemini SDK
- Active participant in hackathons demonstrating strong problem-solving and full-stack development skills
